Five-a-side football, volleyball, fantasy football, cybersecurity, IoT, graphic design, psychoanalysis.

Marco Luigi Botrugno

Full-Stack Developer

Full-stack developer with over 4 years of experience. I build complete applications: web apps, backends and APIs, databases, iOS and Android apps, all the way to going live on servers and app stores. I study Computer Science at the University of Bari.

Experience

Full-Stack Developer — Mar 2022 – present
BarbarHouse S.R.L., Casarano (LE)
Front-end and back-end development.

Maître d', dining room manager — summers 2019 – 2021
La Casarana Wellness Eco Resort, Presicce-Acquarica (LE)
Three summer seasons: first as a waiter, then assistant maître d', and finally in charge of the dining room.

IT technician, school work-experience program — 2018 – 2019
Diemme Service, Casarano; Ciemme Informatica, Presicce

Projects

Match Ready ↗

An app for organising amateur matches among friends: football, padel, tennis, volleyball and basketball. I designed, built and published it on my own; it is available on **App Store** ↗ and **Play Store** ↗.

- Matches with sign-ups, costs and waitlist
- Teams balanced by level, line-ups on the pitch
- Real-time chat with Socket.io
- Push notifications on iOS and Android
- Player ratings, MVP and a leaderboard among friends
- Nearby matches and pitch selection on a map

Vue 3, Ionic, Capacitor, Node.js, MySQL, Redis, Socket.io, Firebase

Le Dimore di Daniela ↗ client website
Website for holiday homes in Salento, in four languages, with availability requests by email. I also designed the logo and visual identity. Live at **ledimoredidaniela.it** ↗.
Astro, TypeScript, PHP, PHPMailer, nginx

ShipFlow ↗ SaaS B2B
Multi-tenant management system for business shipments, with separate data for each client.
React, TypeScript, Fastify, Prisma, MySQL

Levenshtein MySQL UDF ↗ open source
A C function for MySQL and MariaDB: fuzzy search and deduplication inside the database.
C, MySQL, MariaDB, Docker

AlgoRhythm ↗ Spotify and Gemini
Sorts a Spotify library by genre and mood and builds the playlists.
Python, Streamlit, Spotify API

Botrino ↗ Discord bot
XP levels, automatic roles and voice session reports.
Python, discord.py, MySQL

Education

BSc in Computer Science and Software Production Technologies
University of Bari Aldo Moro, since 2020

Technical High School Diploma in Computer Science, 90/100
IIS "A. Meucci", Casarano, 2020
